

Information Security Summit Spring 2005

Date: Friday, May 20th, 2005

Time: 8:30—3:00

Place: The Wyndham Hotel (Downtown Toledo)

Cost: Free Admission!

Once again the Northwest Ohio chapters of InfraGard and ISSA are teaming up to bring a full day of top notch security information to Toledo! Previously it was necessary to travel to Detroit, Cleveland, Columbus or even farther to gain the same type of useful security information that will be presented right in our area.

The security of an organizations' information systems is vitally important. Large, small or in between, all organizations need to ensure their information is safe. Proper training and keeping up with the latest information are critical steps in keeping systems secure.

Separate Management and Technical tracks to include:

Technical:

- Security in a Wireless World - Today and Beyond
- Managing your Assets through Identity and Access Management
- Enforcing Compliance with Endpoint Security

Management Track:

- Security Awareness Program - Addressing the Threat from Within
- Business Continuity Planning - Surviving the Disaster
- Security Risk Assessment Programs
